# **WEATHER KEY POINTS**

**12/31/19 - 01/06/20**

## **Tuesday-Thursday**

- Gusty Santa Ana winds will continue across portions of Southern Region Tuesday, with gusts 40-65 mph possible
  - Downed tree limbs and isolated power outages are possible due to these winds
- More localized gusty winds are expected to develop late Wednesday into Thursday across primarily Santa Barbara County and through the Interstate 5 corridor in Los Angeles and Ventura Counties
  - Hazardous driving is expected due to gusty cross winds; downed tree limbs and isolated power outages are also possible
- High surf will impact much of the coastline on Tuesday through Thursday
  - Impacts from this high surf may include dangerous beach conditions, beach erosion, and possible damage to coastal structures and piers
- A few weak storm systems will bring rain and mountain snow to far northern California Tuesday through Thursday, with dry weather for the rest of the state
  - No significant precipitation impacts are currently expected through this period

## **Friday-Monday**

- After dry weather across the state on Friday, additional storms could bring rain and mountain snow to northern California over the weekend, but confidence is not currently high with regards to details and timing

# CALIFORNIA WEATHER IMPACTS

12/31/19 - 01/06/20
